

## TWO HANG FOR MURDER IN RIOTS IN CHICAGO

CHICAGO, June 24.—Grover C. Redding and Oscar McGavick were hanged together at 7:27 o'clock this morning for the killing of Robert C. Rose, a sailor, in connection with the "Abyssinian riots" last June.

Both appeared cool when they walked upon the scaffold. McGavick stared at the ceiling of the execution chamber while a priest repeated a prayer. Redding closely followed the movements of those who adjusted straps about his arms and legs. Both kept during the night and Redding ate a hearty breakfast.

The so-called "Abyssinian riots" occurred last June when a band of negroes, led by Redding and others, turned themselves "princess of Abyssinia" and connected with a movement for the return of negroes to Africa, staged a parade.

The parade concluded with a bonfire during which an American flag was tossed on the blaze. Rose attempted to rescue the flag and was shot to death from an automobile. The paraders scattered and some ran into a nearby building and in promiscuous fighting which followed, Joseph Roy, a clerk, was killed, and Joseph Powers, negro policeman, wounded.

Contrary to the usual custom of turning over the bodies of men executed, to an undertaker the moment they are cut down, Sheriff Peters retained possession of them for more than an hour.

He gave as his reason that reports had reached him recently that an attempt had been made to restore life to the body of a man hanged recently in the county jail, after it had left the custody of the county authorities.

The bodies of Redding and McGavick eventually were turned over to McGavick's brother, who is an undertaker.

### Giant Airship In Good Flight On First Trip

LONDON, June 24.—The giant British built airship R-38, which has been bought by the United States and will be flown to America by an American crew, took the air for the first time last night, making an entirely satisfactory flight. It was announced by the air ministry today.

The R-38 left the Cardigan station at 7:55 p. m. and landed six and one-half hours later after a flight over the nearby countries. She carried forty-eight persons including the members of the crew. Among the officers were two Americans, Commander L. H. Maxfield, who will captain the air-

### Troop Train Wrecked By Land Bomb

ELFELT, IRELAND, June 24.—A troop train conveying soldiers from Belfast to Dublin was wrecked today at Aterverry, near Dundalk, by the explosion of a Sinn Fein land mine. Three soldiers were killed and some twenty soldiers and an assistant train guard were wounded.

An official statement issued this afternoon, giving the number of casualties, said that about thirty horses were killed in the wreck or had to be destroyed owing to their injuries.

Two special trains with soldiers and horses who had participated in the reception of King George and Queen Mary on the state opening of the Ulster parliament yesterday had passed over the spot safely. The third train was wrecked at a steep embankment when the mine exploded, most of the carriages falling over the embankment. Physicians were immediately rushed to the scene.

Soldiers who saw civilians running away from the scene of the wreck fired at them, shooting to death two unidentified persons.

Two mines were employed. Evidently they had been placed after the passage of previous troop trains. A rail also had been raised.

Some of the bodies of the dead men have been recovered from the wreck. The train carried 105 men and 113 horses. The soldiers were under command of Lieutenant Colonel Lord Francis George Montague Douglas Scott, who was not injured.

(Copyright, 1921, by Times Pub. Co.) WASHINGTON, June 23.—Admiral Sims will be rebuked. The attitude of the secretary of the navy in his first conference with the admiral after the latter's return from England makes this conclusion inescapable. The secretary is undisturbed by the propaganda for and against the admiral seeking either to hush up the affair or to have him punished. Mr. Denby looks at the episode as a naval matter and not a political question.

Denby insists on carrying it through. The secretary asked Admiral Sims if he had been correctly quoted. The admiral said he had not been. If Mr. Denby were disposed to let the matter rest that would have been a convenient stopping place. But he didn't. He inquired wherein Admiral Sims had been incorrectly quoted and insisted also that the admiral recall in writing as well as he could what he had said. In front of the secretary of the navy were newspaper clippings showing that practically all the London papers quoted Admiral Sims as saying about the same thing. There was very little variation in phraseology and none in meaning.

So Admiral Sims will in a few days advise Secretary Denby by memorandum of the purport of his remarks, perhaps in softer terms and phrases, but in any event the question of what shall be done about the incident does not depend upon the exact tone used by Admiral Sims, but in the fact that he discussed at all a question so controversial as the Irish question and made reference in any way to the American voters and their relationship to the question.

Denby severely criticized Mr. Denby has been bitterly criticized for ordering Admiral Sims home and for taking cognizance of the speech. He has been on the other hand as severely censured to take summary action and dismiss the admiral from the navy. He has too fine a sense of honor to strip him of his rank or to order him out of the navy. A man's war record has always stood him in good stead in the navy and there is every reason to believe it will help Admiral Sims in the consideration of his case.

There are, however, plenty of naval regulations covering the Sims incident. The punishment for such an offense as an injudicious speech ranges all the way from mild warning and public reprimand to court martial and dismissal. Discretion is vested in the secretary of the navy. Mr. Denby could convene a court of naval inquiry or a court martial and review their findings but he is loath to run away from responsibility. He feels it is his duty to handle the thing himself and to mete out proper discipline so that it shall not be said that an ensign or enlisted man is severely punished while an admiral who breaks naval regulations goes scot free.

There isn't anything personal in it. Mr. Denby and Admiral Sims had a pleasant conversation, disposed of their business in a few minutes and the secretary let it be known that he wouldn't render a decision until the admiral had had an opportunity to answer the query as to whether he had been correctly quoted.

Hasn't Anything to Do With Harvey

The secretary of the navy insists that he is handling the matter independently of the White House. He hasn't anything to do with the indiscretions of Ambassador Harvey, who comes under the state department. So many people in their messages told Secretary Denby that he ought to let Sims alone because Harvey wasn't punished for his speech in London, which offended so many members of the American legislature. But the secretary of the navy feels he is not dealing with Ambassador Harvey and that his only obligation is to deal with Admiral Sims irrespective of what any other department of the government may do. Some people seem to think Ambassador Harvey was indirectly rebuked by Secretary Hughes, when the latter in his speech at Brown University a week ago expressed a view in absolute contradiction of Mr. Harvey's original speech. The rebuke for Admiral Sims, however, will not be indirect. It will be published on board every ship in the navy and at every naval station which of course is the practice when a reprimand is ordered. Admiral Sims will be punished for his indiscretion.

### LABOR ASKS A PROBE OF STEEL CAR STRIKE RIOTS

DENVER, COLO., June 24.—The convention of the American Federation of Labor today called upon President Harding to investigate the strike riots at the Standard Steel Car Company, Hammond, Indiana, in September, 1919, and to fix the responsibility for the "issuing of guns" and the death of four steel car workers.

The resolution charged that the workers were shot down with riot guns furnished by the United States government.

All organized labor in the United States was requested to unite to "ascertain the actual facts in relation to the use of these barbarous weapons and to fix the responsibility upon such individual officers servants or representatives of the government who shall be found personally responsible for this great outrage against legal and natural right."

Enactment of legislation by congress providing "strict federal control of the production and distribution of natural resources now privately held and privately developed," was demanded by the convention. The convention voted to make the election of officers a special order of business for 1:30 o'clock tomorrow.

The secretary of war and the secretary of the navy and civil service commission were called upon by resolution to immediately discharge from the government service all alien employees who fail to qualify for citizenship.

The convention unanimously rejected a proposal by the central labor council of Seattle, Washington, for a nationwide campaign to establish a maximum six hour day and abolish all overtime in industry.

### Scots Aroused Over Americans Getting Contracts

GLASGOW, SCOTLAND, June 24.—The Scottish steel interests are greatly stirred by the fact that for the first time in history an American concern has secured a valuable contract for the supply of steel axles to the state railways of India. Glasgow firms tendered their lowest possible price after allowing for cheaper coal and pig iron, but they were thirty percent over the American quotation for the contract. The value of the contract is not stated, but it is said to have run into six figures.

The opening of the new Ulster parliament, created by the passage of the Irish home rule bill, is one of the most important events in a political standpoint in recent years in the British empire. The photo, taken at the opening of the Ulster house, shows Maj. Hugh O'Neill, its first speaker.

### Blame Storms For the Ships' Disappearance

WASHINGTON, D. C., June 24.—Weather bureau officials came forward tonight with the theory that some of the dozen or more ships reported to have disappeared mysteriously in the North Atlantic, may have fallen victim to the series of unusually severe storms which were known to have swept this section in the first weeks of February, 1921.

Records of the marine division of the weather bureau show that a storm, accompanied by winds of up to ninety miles an hour, swept the North Atlantic lines about February 6, covering a section measuring one thousand miles in length. This storm continued three days. Again on February 15, a storm suddenly arose in mid-ocean and raged for 72 hours.

While it lay upon a sand bar off Staten Island a watchman and a restaurant owner, carrying a shot gun and a curving knife, ended the young visitor's life. At 1:30 this afternoon the mercury registered 92, the heat wave continuing unabated. This week has been an extremely warm one for June and apparently there is no relief in sight.

This started the fireworks and when the scrap was over the two young men were roughly handled and will bear marks of the encounter for some time.

Mr. Baesman's left cheek was slightly cut where one of the men hit him with his hand on which he wears a ring.

## Has Little Gold Mine All His Own

LOS ANGELES, June 24.—Gold is being mined daily but a few miles from the center of the city of Los Angeles and near the heart of the north residential district. Guy W. Rollins, chief engineer for a rock and gravel company, which operates in the Arroyo Seco, has installed a system of crude sluice boxes and each day "pan" out a quantity of the precious metal that nets him \$20 weekly.

The gold dust is found in the gravel that is dug from the bed of the Arroyo Seco and for years has been left with the crushed gravel to be used in road construction. Rollins discovered the "pay streak" when he entered the company's employ several months ago and has been panning it since then.

Gompers Says Lewis Has No  
Right To Make Platform

DENVER, COLO., June 25.—Election of officers the demand of women for equal rights and privileges in all labor unions, determination of future relationship with European trade union movements and jurisdictional disputes were the major issues confronting the annual convention of the American Federation of Labor today. Although the convention had been in session nearly two weeks, an unusual volume of work remains. Because of this, several delegates announced that they would move to hold night sessions in order that all business could be transacted by Sunday morning.

The announcement by John L. Lewis of the platform on which he is running for the presidency of the federation, brought a statement today from President Gompers, who declared "it is not the right or the privilege of any individual to make a platform in the labor movement."

Mr. Lewis in his announcement declared for nationalization of the mines, government control of the railroads and other "progressive policies."

## A WIFE IN THE MAKING

BY PHYLLIS PHILLIPS

### CHERRY RESENTS THE RESTRAINT

"Heaven on earth, what a tempest in a teapot," laughed Cherry, lightly as Mrs. Randall's form disappeared down the hallway.

"One would really suppose that Mr. Hamlen and I had been guilty of some heinous crime against—against goodness knows what. Why on earth does one have to feel like a criminal for wandering away for a few hours by one's self on a warm day? I simply give up, that's all."

"Now lady-bird, don't get all excited. Mother is just annoyed because one of her pet rules was busted by you tonight. You weren't here for dinner, and you sent no word. Besides no doubt she is far more worried about Miss Case's gossiping tongue than the fact that you stayed away for dinner honey, girl. So try to understand this and smile."

"Yes, I'll smile, Ned, if you and the rest of the family will make allowances for me and my short-comings, for every time that I do the same for you. Also, I'm getting sick to death of having to give an explanation of my every movement to someone besides yourself. It's all nonsense. I don't seem to be able to turn around without being criticized by someone. How would you like it, I wonder?"

"That's just Wellesburg fashion, Mrs. Randall," broke in Arthur Hamlen. "We all get used to it, sooner or later. Why I am thirty years old and my mother still asks me where I've been when I come back from a trip, no matter how short a one. Seems funny doesn't it?"

"It would kill me to have to face that sort of thing for the rest of my natural life, Mr. Hamlen," answered Cherry in a tragic tone. "I've been used to freedom, to being trusted everywhere. My little mother always had such a beautiful faith in all of her children. Maybe she spoiled me."

"Cherry, what's the use of flying up about us all. We have our bad joints here in Wellesburg, Lord knows, but we aren't half bad, the rest of us. Hon, so cheer up. Guess we'd better go in and forage in Aunt Phoebe's ice box; you and Artie must be starving even though you had such a wonderful tea. It's way past ten now, and time for you to feed the inner man. Along!"

Inwardly boiling at the whole incident, Cherry nodded, and before long the three of them were seated round the table with huge mounds of bread and butter and cold meat before them and plenty of Phoebe's good preserves.

After their meal they went back again that evening once more and sat talking until Arthur decided it was time for him to meander on towards his home.

Mrs. Randall did not appear again that evening, and just before retiring Ned confessed to his wife that, no doubt his mother was busy nursing a grievance. He would speak to her in the morning about letting Cherry have her little walks.

Tired, but peaceful in her mind, his wife hugged him to her as she put out the light.

(To be continued.)

## NEW BOSTON Hot Summer Sun Trying On The Complexion

### How To Protect Your Skin and Bring Roses to Your Cheeks

A Free Ointment Prescription Does Its Work Overnight. You Can Prepare It At Home

New York—Exposure to sun, dust and wind has a very bad effect upon the skin and complexion. There is a way to overcome this. "It is my own discovery and takes just one night to get such marvelous results," says Max Edin, Wilder when her friends ask her about her wonderful complexion and the method she used to get it. "I have used this for years and it has brought back my complexion and skin blemishes would soon be a thing of the past. In a few weeks all these unsightly defects had entirely disappeared and I shall always use it to keep my complexion at its best all the time. I have recommended it to my friends and they are just as enthusiastic over it as I am. We all use it before going to the theatre, dances or parties and it's wonderful what a difference it makes in our appearance."

Miss O. C. says: "My complexion was poor and my skin rough. My cheeks were dark and my arms were dark from exposure. The very first application of this wonderful Derwill-o-ointment combined with the use of the Derwill-o-ointment and skin blemishes would soon be a thing of the past. In a few weeks all these unsightly defects had entirely disappeared and I shall always use it to keep my complexion at its best all the time. I have recommended it to my friends and they are just as enthusiastic over it as I am. We all use it before going to the theatre, dances or parties and it's wonderful what a difference it makes in our appearance."

Go to any grocery store and get ten cents' worth of ordinary oatmeal, and from any department or drug store a bottle of Derwill-o-ointment. Prepare the ointment as directed in every package of Derwill-o-ointment. Before applying Derwill-o-ointment, wash your face with a good cleansing cream. (Liska cold cream I have found to be the best). The first application of the ointment makes the skin appear transparent, smooth and velvet. I especially recommend this method to dark, sallow skin, shiny nose, freckles, tan, sun spots, coarse pores, rough skin, ruddiness, wrinkles, and in fact, every blemish of the face. Hands and feet are also improved. If your neck or chest is discolored from exposure, apply this combination there and the discoloration will disappear as if by magic. It is absolutely harmless and will not produce or stimulate a growth of hair. Shiny short sleeves are in vogue it is necessary to have beautiful hands and

arms, no matter how rough and unattractive the hands and arms or what abuses they have had through hard work and exposure to sun and wind. This combination will work a wonderful transformation. Thousands who are using it report the same results. I have had:

DAILY VACATION BIBLE SCHOOL  
BASEBALL TEAMS ENJOY GAMES

In a game that was brimful of pep and class plays, the Daily Vacation Bible School League series opened this morning, at York Park, the West Enders taking the Centrals into camp by the score of 15 to 6. "Tubby Moore" and Lewis each made a double play, unassisted, another double being Getz to Spencer. "Speedy" Donahoe, with the aid of a real big-league slide, stole home. Rosmore Gault made a very satisfactory umpire. For the West End "Tubby Moore" and "Hup" Morris were the shining lights, while Spencer starred for the Centrals.

The First Presbyterian boys had so many that wanted to play, that Coach Harry W. Wagner decided to use two full teams, each playing for half the game. The boys entered into the game with fine spirit, obeying the rules, and showing the result of good coaching. Second Presbyterian boys were in charge of Rosmore Gault.

The two First Presbyterian teams lined up as follows:

Doroughty, c; "Hup" Morris, 1b and p; Armbruster, ss; Adams, ss; "Slick" Donahoe, 1b; Smith, 2b; "Tubby" Moore, 3b; Dick Fuller, 1f; Saddle, cf; Bridges, rf; Payne, c; "Peanut" Saddle, p; Multer, ss; Bassler, ss and 3b; Tracy, 1b; Payne, 2b; "Spec" Fultz, 3b; "Gib" Fuller, 1f; "Jim" Crow, cf; Wiggelt, rf.

Bandit Fears  
Visit to Towns  
He Terrorized

SHANGHAI, May 31.—(Delayed)—Letters to missionary organizations in Shanghai from Yunnanfu tell that Yang Tien-fuh, the Yunnan bandit whose name came into the world news a year ago after he had kidnapped Dr. A. L. Shelton, a medical missionary and who was granted amnesty for his offenses and was given a high military post for releasing Doctor Shelton, is finding that official life at the provincial capital is not one of roses.

Yang Tien-fuh was given the rank of colonel in the Yunnan provincial forces as part of his reward for releasing the missionary and two others that had been seized by his followers. Recently, say the letters to Shanghai, he petitioned the viceroy of the province asking that he be permitted to remain in Yunnanfu at a time when he was expected to accompany troops he commands to a distant point. The reason given is that the former bandit chief fears to travel through villages and towns that he formerly terrorized and it is stated that even in Yunnanfu he never dares to stir out upon the streets except when accompanied by an armed guard.

HONOLULU, T. H.—More than 15,000 officers and men of the United States army compose the present garrison in Hawaii, according to recent, semi-official tables completed here. That this total will be brought to approximately 25,000 is the confident expectation in well-informed circles.

The last important unit to arrive was the 55th artillery, with its equipment of heavy motorized guns. These troops came during May and are quartered at Fort Kamehameha near Pearl harbor, the navy's great base in the islands.

## Big Pool Is Opened

With a dozen expert swimmers demonstrating fancy strokes and enjoying the cool water, and a good crowd of friends and members watching the exhibition, the Y. W. C. A. opened the new swimming pool in the basement of the Auditorium, Gallia and Bond streets, at 7 o'clock last night. Miss Ruth Strick was in charge of the opening which lasted until after nine o'clock.

The new pool is excellently appointed for clean and healthful bathing. Every precaution has been taken to keep the pool and its surroundings absolutely pure and free from any danger of contagion. The water is passed through a filter tank before entering the pool and will be inspected twice each week by local physicians. Adequate individual showers are provided to care for the capacity of the pool.

The water purification system centers about a huge tank in the rear of the room containing the pool itself. Here the water flows constantly from perforated pipes into a gravel pit in which chlorine has been placed to sterilize the water. Rigid inspection will prevail, the entire system has been certified by the health board before the pool was accepted.

Every user of the pool must present a written health card signed by a physician and certifying to examination before entering the water. The pool is open to every woman and girl in the city whether or not she is a member of the Y. W. C. A.

The pool is six feet in excess of the standard pool, being twenty-six by sixty-six feet. The water graduates from a minimum depth of three and a half feet to a maximum of eight feet. The shallow end is roped off from the deeper water to prevent any inexperienced swimmer getting into the dangerous depths.

Classes will be held at the pool beginning today from 2 to 6 o'clock and from 6:30 to 9 p. m. each day under competent instructors. The pool will be open throughout the day.

Among the swimmers who were present at the opening were Louisa Wright, Mrs. Plymouth, Mrs. Shoemaker, Evelyn Campbell, Mrs. John Lowry, Margaret Winter, Miss Henry, Mrs. Floyd Fuller, Mrs. Maris Bridges, Violet Stockholm, and Mrs. Howard Newman.

## Toronto Has Inside-Track In Kiwanis Meet

CLEVELAND, O., June 24.—Final reports of committees, the election of officers and the selection of next year's convention city were on the program for the closing session of the fifth international convention of Kiwanis Clubs today.

Interest centered in the selection of the next meeting place, for which a campaign has been conducted by the Toronto, Atlanta and Fort Worth delegations since the convention opened Monday. Toronto was conceded to have the best chance.

With the withdrawal of R. A. Mansfield Hobbs, New York attorney, the race for international president narrowed down to two men—Harry E. Karr, of Baltimore, and Colonel J. T. McCulloch, of Marion, Indiana. Karr's election was predicted.

Among resolutions submitted was one approving aid for disabled soldiers, fostered by J. Mercer Barnett, of Birmingham, international president. Mr. Barnett declared each state should have a home for sick and disabled soldiers, with a hospital, employment agency and school for vocational training in connection.

## GROCER'S OUTING BIG SUCCESS

Close to five hundred people, members, associate members of the Portsmouth Retail Grocers' Association and their families enjoyed the first annual outing held at Vaughter's Grove on Turkey Creek Thursday afternoon. The success of this big meeting means there will be other such gatherings by the association.

There were close to fifty machines in line when the auto parade moved down Gallia street from the N. & W. freight house at two o'clock. There were close to 100 machines parked near the grove, as many made the trip before the auto parade and some went later.

The ball game which was one of the features of entertainment in the afternoon, was between the owners and clerks, the former winning 13 to 11. Many of the younger folk enjoyed bathing and wading in the creek, while croquet was played by the women. Other men not playing baseball took part in backyard golf, better known as horseshoe pitching. All in all it was a great outing and thoroughly enjoyed by every one present.

At six o'clock a basket lunch was served. Free lemonade was dispensed all afternoon, the gift of various members of the Association. Free cigars were furnished by Freshout's Grocery, the Ohio Wholesale Co., and the Dahl-Campbell Co. Van Deuten supplied the coffee for the picnic supper and Sid Anderson, representative of H. J. Heinz, distributed free samples of beans, relishes, and mustard. Outside of a few pinches and blowouts, over-attendance incidents to the pilgrimages of such magnitude, the affair was unmarred by accident or untoward happenings.

C. N. Smith was the chairman of the committee in charge of the outing, the first of its kind in the annals of the local association. The success of the afternoon and the many comments of "Great time!" are tributes to his forethought and care in making the arrangements.

Miss Gerriet Eckhart of Madison township, who was recently operated upon in Hempstead hospital, is improving. She is a daughter of Mr. and Mrs. Sampson Eckhart.

## Miss MacSwiney, Noted Speaker, To Talk In Tracy Park June 28

Miss Mary MacSwiney who speaks here June 28, has always been a worker for Irish independence. Educated at Ursuline convent, in Cork, Miss MacSwiney took a teaching course and received a degree at the National University. She has been teaching since the early 90's, having taught at one time in France. She is now on leave of absence from her school room duties, her sister replacing her for the time being.

Miss MacSwiney was made a member of the governing body of the National University last January, because of her educational activities.

She also is the founder of St. Ita's high school in Cork. Never, however, has she been so busy with school affairs that she could not find time to aid the cause of Irish freedom and particularly women's part in the movement. Because of her ceaseless efforts on behalf of Ireland's women she was called upon by the framers of Ireland's Declaration of Independence to work out the equal suffrage plank in their national constitution.

A brother of Miss MacSwiney, Peter, is an American citizen, living in New York; while a sister, an Ursuline nun, is in a convent at Asheville, N. C. Miss MacSwiney is 45 years old.

## LEMON STORE ROBBED

For the second time within three months and the fourth time in two years, thieves early this morning entered L. F. Lemon & Company's store

at Gallia and Lawson streets in the East End. They stole shoes, shirts, hats, cups, clothing, jewelry, suit cases, clothing and handbags to the value of \$400.

The police were notified of the robbery this morning and are making an effort to obtain a clue. Sergeant Floyd Shonkwiler visited the Lemon store this morning and secured a list of goods stolen by the thieves. All nearby cities will be notified to keep a lookout for the robbers. They secured an entrance to the store by forcing a rear window and they then had complete access to the store. They evidently were bent on getting clothes and furnishings as they did not bother the cash register.

Arthur Bealer, clerk, discovered the robbery when he opened the store at the usual hour this morning. He found it in a topsy turvy condition, goods being scattered in all directions.

## Speedy Rehabilitation Of Domestic Industry, Adjustment Of Transportation Is Stressed

WASHINGTON, D. C., June 24.—Necessity of a speedy rehabilitation of domestic industry with the adjustment of transportation difficulties as one of the most vital needs was understood to have been stressed by a group of prominent middlewestern bankers and financiers at a conference last night with President Harding. As dinner guests of the president at the second of his conferences as "best financial minds," the representatives of the middlewestern business world were said to have emphasized the need of doing something to relieve the present business depression in the country, as distinguished from the problem of foreign credits and expansion of exports which was considered by the international bankers' group at the first conference several weeks ago.

Details of the conference discussions were held in confidence, but it was understood that the financiers, in their discussion of the railroad problem, expressed a willingness to aid in its solution and particularly in bringing railroad management and labor together. Agricultural questions, especially relating to the movement of wheat in the west and cotton in the south, also were said to have been discussed at length.

**THE MARKETS**  
**NEW YORK STOCKS**  
NEW YORK, June 24—Short cover-  
ing in the popular oil, steels, motors  
and chemicals imparted a degree of  
strength to the general list at the open-  
ing of today's stock market. Crude  
Petroleum, General Asphalt, Chemical  
Steel, Standard Oil, Allied, Chemical  
and American Agricultural Chemical  
preferred scored early gains of one to  
almost three points. American Tobac-  
co, Sumatra Tobacco and Pullman  
were firm. Equipments and motors  
were lower, however, United States  
Rubber reacting two points to a new  
low. Heaviness was shown by Beth-  
lehem Steel, Baldwin Locomotive,  
American Sugar and American Inter-  
national.  
Guided by Mexican and Pan-Ameri-  
can Petroleum, General Asphalt,  
Standard Oil, Crude oil, other motors  
and independent steels, the market  
continued to improve during the first  
hour. Tobacco and chemicals also  
extended their gains with copper-  
nickel, Corn Products and rails, chiefly Pa-  
cifics and coals. There were sev-  
eral weak spots, however. United Drug  
first preferred and Baldwin Locomo-  
tive, preferred, Industrial Alcohol pre-  
ferred and Bethlehem Steel showing  
losses of 1 to 5 points. Galus among  
leaders were shaded on profit taking.  
Closing in stocks today was dull and  
unusually contradicted. Short cover-  
ing among speculative favorites caused  
rallies of 1 to 3 points. Sales approxi-  
mated five hundred thousand shares.  
The closing was firm.

OAK HILL, June 24—Durward,  
youngest son of Postmaster and Mrs.  
Frank Wasner, passed away at Hol-

ness lasting three weeks.  
He was operated on for bowel  
trouble on June 3. He rallied nicely  
and was almost ready to leave the  
hospital when the trouble returned  
and another operation was found to  
be necessary. This took place last  
Sunday morning. Bright hopes were  
entertained for his recovery, but he  
became worse again Wednesday eve-  
ning and the third operation took  
place. He rallied from this, but the

ing in the west proceeds on about the  
same level of values, considerable wool  
moving forward on consignment."  
The foreign markets show some-

## The KILLER

Adapted From the novel of Stewart Edward White

## Henry Hooper

The killer whose creed was, "I will have nothing within these walls that is not mine—that does not obey my will."

## Ruth Emory

A victim trapped by this wily mad man and held captive at his fortified ranch.

## Ramon

His tool, his henchman. A slimy bad breed who carried out the will of the killer.

Again The Eastland Scores With a Master Picture—Two More Nights—Tonight and Tomorrow, Matinee Tomorrow. The Eastland Will Offer Stewart Edward White's Novel, "The Killer," and Larry Semon in "The Rent Collector"—Two Big Headline Attractions.

## Program

A—Overture—"Don, Homme" (My Man)—The French Sensation—Eastland Orchestra.

B—Larry Semon in "The Rent Collector."

C—"The Emerald Isle"—A Kineto Subject With Music.

D—Stewart Edward White's Novel, "The Killer."

Everyone loves clean, stirring, breathless melodrama. It fascinates. Stronger is its lure when there is a beautiful girl in distress, helpless and hopeless, in the clutches of a superman who loves music, is a charming host, but who at heart is a crafty killer.

Doesn't your blood boil when you think of that girl's plight, or are you skeptical?

Sambert, a New Yorker, in Arizona for his health was a "show me." And when the killer's net tightened around him—well, hold your breath!

You know how Stewart Edward White's novels lift you out of your spirit. "The Killer" is his most powerful.

It has our personal unqualified endorsement! Larry Semon has produced another riot of fun, using for his chief malefactor the ever popular rent collector.

Larry takes a job as rent collector and gets into all sorts of trouble. In

this comedy Larry introduces many new stunts. As usual he injects a number of thrills which end with comedy twists. He introduces a trick camera that swirls water or milk into the faces of those it dislikes. There is also the slapstick comedy, so popular with both young and old. Larry smashes several hundred dollars' worth of statuary, a complete assortment of fresh fruits and vegetables, an automobile and breaks upon barbers shop, to say nothing of spilling several barrels of tar in and wrecking a three story house and contents. It is one of the funniest comedies Larry has ever produced and contains a logical story, which is easy to follow.

## Daniels Supports "Morale Committee" On Every Ship

RALEIGH, N. C., June 24—A "morale committee" on every ship in the navy would not weaken discipline

in the service, but "undergird it," Josephus Daniels, former secretary of the navy, declared when his attention was called to the action of Secretary Denby in relieving Captain Clark D. Stearns from command of the battleship Michigan for permitting members of his crew to discuss disciplinary matters with him. Captain Stearns' creation of a "morale committee" of enlisted men for this purpose was done with the approval of the former secretary. Adhering to his approval of the policy as secretary, Mr. Daniels said:

"A morale committee consisting of officers and enlisted men, such as was instituted by Captain Stearns on the Michigan, on every ship in the navy, would promote better morale in the entire naval service. It would not deprive the captain of the ship of the power of discipline, but would be a stronghold in securing the best and most satisfactory discipline. It would encourage a better understanding and closer co-operation between officers and men. Instead of weakening discipline, it would undergird it."

Three Star Specials at Exhibit

William S. Hart, Louise Glaum, Bessie Love in "The Arjan" at the Exhibit Today and Saturday.

Don't miss this one. Williams S. Hart, the acknowledged peer of Western character portrayals, will be seen in another gripping drama at the Exhibit theatre when he is presented as the star of "The Arjan," an original story by C. Gardner Sullivan.

This, it is declared, is one of the most tensely compelling narratives ever penned by the prolific and versatile author and suits to a nicety the capabilities of the screen's popular "bad man."

"Of written in letters of blood: deep-carved in the face of destiny, that all men may read, runs the code of the Arjan race: 'Our women shall be guarded.' And a man of the white-skinned race may forget much—friends, duty, honor, that this he will not, he cannot forget." Such is the text of the theme chosen by Sullivan in preparing his latest Triangle story for Hart.

Hart plays the part of a rugged man of the desert, who, having been floored of his fortune by the degraded women of a lawless town, turns against the feminine sex.

## Better Detours Promised To Ohio Auto Clubs

Assistant Secretary and Manager T. J. Coe of the Portsmouth Automobile Club has returned from Columbus, where he attended an important and interesting session of secretaries of Ohio automobile clubs. The meeting was held at the Southern hotel, Thursday, luncheon being furnished by the Ohio State Association, under whose direction the meeting was held. Secretary of the Ohio Association, Charles C. Jones, outlined the purpose of the meeting and Fred H. Caley, secretary of the Cleveland Club, spoke of the different bills that are being planned and are already in the hands of the legislature and which will work to the benefit of the motorist. Besides the 45 secretaries present, there were in attendance Senators and Representatives, county clerks and state officials. Senator Atwood, in his address, made a full explanation of the Atwood auto theft bill. Senator Burk gave an explanation of the truck bill which limits the loads of trucks. State Auditor Joseph Tracy talked on the fee question for the benefit of county clerks present. State Highway Engineer Leon C. Herriek talked on the matter of better detours and temporary roads, and work of state contractors. If what he said is carried out, the state will not have any more such road conditions which have existed on the West Side the past several months. He urged that

reports of such roads be made direct to him, adding that he would see to it that detours and detour road signs are in the best of condition. He said that he has faith in his system and will do his best to carry it out.

**Sues For Divorce**  
In a petition filed at the courthouse Thursday, Mrs. M. Nurse seeks a divorce, restoration to her maiden name and other proper relief. The suit is directed against her husband, Alton H. Nurse, who according to the petition, is now living away from her at Puerto Plata, Dominican Republic. The plaintiff says in her petition that she was married to the defendant on April 12, 1915, and that no children have been born to the union. She charges, as her first cause of action that her husband, in disregard of his marital duties, has been willfully absent from her for more than three years. As her second cause of action, she alleges that the defendant has been guilty of extreme cruelty by writing her several letters saying that he did not care for her and would not live with her.

**Asks For Judgment**  
The Kentucky Fire Brick Company is made defendant in a suit filed Thursday at the courthouse by the Chesapeake and Ohio Railroad in which they ask for the sum of \$1,037.94 for alleged damages to five freight cars while in the yards of the defendant in Kentucky. The plaintiff charges in the petition that five freight cars were left on a spur on the defendant's property in good condition on April 13, 1920. The petition further charges that by negligence and ill use that the cars were damaged by fire from the plant of the defendant and returned to the plaintiff beyond reasonable wear and tear thereof. Attorney Henry Bannon for the plaintiff.

**Account Filed**  
An account was filed at the courthouse Thursday by George Emmett, guardian for Frank Hill, a minor.

**Cases Continued**  
The cases of the State of Ohio vs. Baker Lee and the State of Ohio vs. Ella Lee, for alleged neglect of children, were given a preliminary hearing at the courthouse Thursday. They were continued by order of the court.

**Hear Three Complaints**  
At the meeting of the board of revision at the courthouse, three complaints were heard. The complainants were Carl Fuhrman, Ira Humphreys and William A. Rose. The first two named complained as to the value of buildings and the last as to the value of both land and buildings.

**Win In High Court**  
The Board of Education of Madison township now has a pretty fair opportunity to pay some money improperly levied back to the taxpayers of that township and a petition was filed in common pleas court this morning by Blair and Blair that will bring this important issue before the court. In February, 1919, the Board of Education of that township passed a resolution to issue bonds to the amount of \$25,000 for the construction of a new centralized high school building, also bonds for \$1,000 with which to purchase a truck to be used in transporting the pupils to school and \$750 for a site.

R. W. Allard, representing citizens, through Blair and Blair, in December, 1919, brought an action to enjoin the issuance of the bonds and Judge James S. Thomas hearing the case granted an injunction. In February, 1920, a motion was made by defendants to dissolve said injunction which was overruled. The Board of Education then took the case to the Court of Appeals which reversed the lower court holding that the board had authority to issue bonds for the purpose of erecting the school building, but not to purchase the truck. Allard, representing the citizens took the case to the Supreme Court and the opinion of the court of appeals was reversed.

and the judgment of Judge Thomas of the common pleas court affirmed and the injunction preventing the issue of bonds made permanent.

During the pendency of the case the Board of Education proceeding under the belief that the case had been won, levied a tax to create a sinking fund to pay these bonds and they paid out the sum of \$381.25 and they paid out the sum of \$388.75 to architects, and \$30.31 for the expense of printing the bonds.

Today Blair and Blair filed papers making application to recheck the case in the common pleas court making additional parties defendants and ask the court to require the money alleged unlawfully levied and collected and paid out of the fund to be repaid to the taxpayers and that the Board be enjoined from the distribution of the amount raised.

## American Property Held In Germany Is Restored

BERLIN, June 24.—(By the Associated Press)—In making formal announcement today that all American property held by the German government would be released immediately, the foreign office said much of such property already had been restored, but that certain credits and securities were still held. This was because Germany was unable to know whether the United States would adopt the same system of accounting as that provided for in the Versailles treaty, the announcement declared. Consequently, it added, Germany in returning American property was running the risk of having to make double payments, but nevertheless the government had decided to turn over all American property immediately to save the owners further trouble, facilitate a resumption of German-American trade and establish the inviolability of private property.

By FANNIE HURST

(Copyright.)  
Life was bitter on Della's tongue—the great McChesney had failed her! Now, McChesney may have had no part in the workings of the solar system, or any possible surveillance over the elements but it is certain that the grayness of the spring dusk and the chill which penetrated Della's brown jacket when she stepped from the employees' door of the biggest store were traceable to that gentleman.

McChesney needs no introduction; he looked like an imported opera tenor, and sold shirts and gentlemen's hose; he wore knitted, flaring neckties which represented a wide and appreciative feminine following.

His past was checkered with Delas, and his future promising; he was suggestive of musk, throat-tablets, and bay rum.

So much for McChesney. He had invited Della out to dinner, and incidentally transformed her world into an Eden of artificial palms and table d'hôte, an enchanted wood fragrant with musk and bay rum.

But today McChesney had failed her.

Late in the afternoon she saw him talking with Maizie Tompkins, of the jewelry.

Della lived in New York in a lower West Side furnished room. When Della reached her furnished room the evening that McChesney had sent her world tumbling about her the usual atmosphere of soaping clothes and warming stew smote her with unusual pungency.

She lighted her one-fourth candle-power gas jet. Then she sat down on the edge of her couch-bed and stared at herself in the dresser mirror.

No gentleman had ever taken her out before.

There had been another, Charley Spuggs. He had gone out of her life when he left the hardware department for the vague West, and his memory and his promises were as dim as the tincture on her dresser.

There came a knock at her door. Her landlady stood there.

"A gentleman down-stairs, Miss Dolly—Mr. Spuggs!"

"Tell him I'll be down," she said. She buttoned up her blouse and went down-stairs.

Charley Spuggs bounded up three steps to meet her.

"I've come back, Dolly!" he cried. "For what?"

His elbow poked at her arm, a habit she recalled.

"For you—I'm ready for you, honey," he chuckled, and watched her face for the effect of the bomb he had exploded.

"I'm makin' eighteen a week now—second assistant foreman, and I got a cottage rented for us just two blocks from the foundry—garden in front and stationary wash-tubs—eh, Dolly? That ain't bad for a fellow like me?"

Della moistened her lips.

"You're getting there, Charley," she replied.

"Eighteen per ain't had money," she agreed.

He took her to a "Tables for Ladies" lunch room.

"Pittsfield's a tank town, ain't it?" she asked suddenly.

"It ain't, when you git used to it—you'll have a grand time. Dolly—there's four rooms in the cottage, and stationary wash-tubs. I ain't got no more hankering after this burg."

Charley took in a noisy mouthful of coffee.

"We'll be something in Pittsfield, all right, all right."

His sense of assurance and possession frightened her.

"One room in New York beats ten in a Reub town," insisted Della.

He crumpled his paper napkin into a tight wad.

"What do you get out of New York, I'd like to know?"

"I guess you're right," said Della, jabbing at the butter; "it ain't no life."

Charley Spuggs leaned across the table, and his nose-descent face was even mellow.

"We're going to be married in the morning and clear out on the twelve-thirty—you're going to be a lady, honey—four rooms and stationary tubs."

They were out on the streets again. Almost simultaneously, Della caught a glimpse of McChesney. He was alone and it gave her a shock.

Then the human flux closed about the gorgeous man, and Della felt Charley's arm poking hers.

"How about it, Della; is it the twelve-thirty, tomorrow?"

"Yes," replied Della suddenly.

In the griminess of the front hall Charley printed a smacking kiss on the cheek she turned to him.

"Good night, honey. Be ready before nine!"

Then she closed the door after him and went upstairs.

There was a small box on her dresser.

It was a one-pound box of chocolate bonbons; underneath the lace paper was a note written in lead pencil.

Dear Della:

Sweets to the sweet. Will you come to the hop with me tomorrow night at Clond's if I call around for you?

After a while she crossed to her trunk, lifted out the top tray and dived—she came up with a small pair of dancing slippers.

She polished them carefully, and placed them on the window sill to dry.

Then she undressed and fell asleep with a smile on her slightly parted lips.

## Must Raise Bridges

Pittsburgh, Pa., June 24.—Construction of the proposed Lake Erie Ohio river ship canal through Western Pennsylvania can not be considered as long as the bridges spanning the Allegheny river at Pittsburgh remain an obstruction to navigation. Major General Lansing H. Beach, of the United States army engineers, told a conference of business and river men here today.

General Beach added that the raising of the Allegheny river bridges was an order by the war department and for every month after the time held for the completion of this work that the bridges are not raised, Allegheny

county is subject to a fine of five thousand dollars for each bridge. General Beach was assured that private and public agencies in Pittsburgh would do all in their power to aid the government in having the bridges raised.

## MAN SHOT TO DEATH; NEIGHBOR IS ACCUSED

### J. Jordan Is The Victim; Shooting Occurred On Candy Run; Lifeless Body Found At Daylight

What county authorities term the "cold blooded" killing that has come to their attention in months was effected last night between 8 and 9:30 o'clock on Candy Run, about five miles from Lucasville, when J. Jordan, about 35, was shot and killed, it is alleged, by a neighbor. The shooting and killing of Jordan followed quarrels over a small amount of lumber involved in a deal Jordan had made with Wright for a tract of land. The shooting occurred about five hours before Sheriff E. E. Ricker was notified and he has spent since two weeks this morning in the vicinity of where the crime was committed. No trace has been found of Wright who left his home last night.

All nearby towns have been notified to keep a lookout for him as he is expected to try to get back to his old home on Wilson Creek, back of Keokuk, W. Va., or to Prestonsburg, Ky., where his wife's relatives live.

Jordan's dead body, with two bullet holes in the breast was not found until about daylight this morning by a searching party composed of neighbors, accompanied by Sheriff Ricker.

According to information gathered by the deputies accompanying Sheriff Ricker and from reports of neighbors the shooting was the direct result of the trouble over the pile of lumber on

the Jordan place. It seems that Jordan who only has a hillside tract of land made a trade several days ago with Wright whereby Wright gave Jordan a cow and a horse for some of the land. The two men are said to have quarreled yesterday over whether the lumber was to go with the land or not. Jordan insisted that he was to still have the lumber while Wright insisted it was to belong to him in the trade.

**Thought Dispute Had Been Settled**

Jordan was at his home at the usual supper hour about 5:30 and there told his family of some of the trouble. According to the family's story told the Sheriff and his deputies, Wright called at the home about 7:30 and talked with Jordan like he was on the best of terms and the two men left the Jordan home to go to the lumber pile back on the ridge, a short distance from the home. According to the story told by the Jordan family it was thought that Mr. Wright was going to settle the dispute by buying the lumber.

About a half hour after the two men left members of the Jordan home say they heard the report of five shots fired close by. They did not pay attention to the shots until several hours later when the husband and father

failed to return. As the time wore on and her husband did not return Mrs. Jordan became greatly alarmed. Her nearest neighbor was the Noah Wright family, father of Swin Wright. She did not care to ask help from there on account of the trouble between the two men and later secured help from the Wallace Lyons and John Miller farms about two miles away. They did not know where to look for the missing man and decided the best thing to do would be to notify the sheriff.

Sheriff Ricker when called asked someone of the party to go to the Wright home and see if Wright was at home and to inquire of him where he left Jordan. According to the answers given the searchers did not care to risk going to the Wright home and were so urgent in their appeal to the sheriff and were so sure that something had happened that he decided to visit the community and find out what was wrong.

Sheriff Ricker was accompanied by E. W. Ricker and Marion Rice. Their first stop was at the Wright home. When Sheriff Ricker knocked, Mrs. Wright asked if it was Swin and the officer told who it was and entered.

According to the officers, Mrs. Wright was fully dressed and a bright light was burning, as if she was expecting someone. Her nephew, a son of John Wright, who lives nearby, was with her. She told the officers that her husband had left about six o'clock and had not returned. A search of the house resulted in the uncovering of an empty box that held 35 calibre cartridges and another box half

empty. The wife said he owned a Smith and Wesson gun, but it could not be found.

Sheriff Ricker then continued the search and investigation while Deputy F. W. Ricker kept a watch on the home all night in the hope that Wright would return before attempting to make his getaway.

**Find Man Shot Through Heart**

About 5 o'clock this morning the searching party on the hills found the body face downward about a half mile from the home. The man's hat was found fully thirty feet from his body. One shot was through the heart and must have caused instant death. The other shot entered a little higher, nearer the shoulder and ranged downward. According to Sheriff Ricker, this indicated that Jordan might have been sitting down when fired upon. There were no powder marks on him, the gun-user being some distance away when he opened fire. A bottle partly filled with moonshine was found near the place where Jordan's body was found.

In the searching party, besides the sheriff, were W. W. Lyons, Carlit Stambaugh, Harry Lyons, Marion Miller, Herbert Preston, Merle Miller, Hudson Greiffer, Will Sparks and Floyd Miller.

Later the body was removed to the Reger undertaking establishment, where Coroner J. D. Hendrickson viewed it and conducted a post-mortem examination.

This morning Sheriff Ricker learned from W. W. Lyons that he was at the Jordan home last night

## JACK DEMPSEY IS 26 TODAY

ATLANTIC CITY, N. J., June 24.—Jack Dempsey today is celebrating his twenty-sixth birthday by taking a 24 hour lay-off from all training activities. The champion did no real work and suspended his usual gymnasium exercises. The camp was closed to the public for the day and his sparring partners rested up preparatory to the resumption of boxing tomorrow.

Dempsey received a hundred or more telegrams from admirers and relatives extending birthday greetings and wishing him good luck in his defense of the championship against Georges Carpentier at Jersey City, July 2. He looked eagerly forward to amassage he expects from his mother in Salt Lake City.

With the championship battle only eight days away Dempsey is progressing so rapidly in his training and is in such splendid condition that Manager Jack Kearns has decided that he will not require the services of Kid Norfolk, the negro light heavy weight, Harry Greb, Miss Gibbons and others who are expected to be in Dempsey's camp for the final week of training. The present sparring partners, Kearns said, will continue to work with Dempsey until the finish.

The full training program will be resumed tomorrow and the champion also will box Sunday. Dempsey, however, will be given a rest Monday and will do only some light training to satisfy the big crowds which have been turning out to see him in action. The title-holder will do his last work with the gloves Tuesday and Wednesday, according to the schedule laid

out by Manager Kearns today. Dempsey will take some light exercise on Thursday to loosen up his muscles, but on Friday will remain in seclusion at his camp until the time for his departure for Jersey City.

## Keep An Eye On The Braves

NEW YORK, June 24.—Chances that the Boston Braves, directed by two of the men who had considerable to do with the great crash of the team to a National league pennant and a world's championship in 1911, will repeat this season, are being seriously considered by baseball experts who have watched the team in its series against the New York Giants here this week.

Manager Fred Mitchell, of the 1921 Braves, was the first lieutenant of George Stallings, the pilot, in 1914, directing the work of the pitchers that season. Dick Rudolph, veteran hurler, who is now Mitchell's "right hand man," was the Braves' most effective

## Jones Retires From Tournament

SAINT ANDREWS, SCOTLAND, June 24.—Robert T. (Bobby) Jones, of Atlanta, Georgia, who led the amateur in yesterday's play for the British open golf championship here, retired from the tournament this morning after he had made a failure at the eleventh green.

Jones, who was one of the early starters, put his tee shot into a beach bunker to the left of the eleventh green, taking two to clear the bunker. He then attempted to putt for a four

but missed, and then tore up his card. His score for the first nine holes was 43.

Tom Kerrigan was the first American to complete the first round of 18 holes this morning, turning in a card for 72, making his aggregate score for yesterday's double round and this morning 226.

American golfing hopes have risen considerably in the last 24 hours and the players who crossed the Atlantic began the second day's play of the

Friday—Retailers vs. Vulcan Last.

The tie for third place in the Municipal League was broken last night when the Postoffice nine won a 23 to 6 game from the Ohio State Life Insurance nine. It was the Postoffice's time shine and they did that very thing. They got onto Bauer's offerings good and hard and when they did not hit he walked them and forced in runs. Wallace and Glasscock also tried hurling the pit and fared but little better. Errors on behalf of the insurance nine outfielders let in one third of the runs.

In the fourth with three on Woods cleared the bases with a home run. Bauer made a home run in the seventh when Scouten shoved the ball over the bank after making a good stop.

The carriers scored four in the first when Kilgore's hit scored Scouten, Staker and Collins after four consecutive free passes had forced in Reiser. Ohio State came to life in its half with Jacob's scoring on Haag's hit, which also filled the sacks. Glasscock filed to left, however, and the triplets died.

After scoring four in the fourth with Woods' home run, the Postoffice began a slaughter in the fifth. Staker hit to middle scored Scouten. Collins walked and Lookabaugh hit to right. Kilgore walked. Reinert hit to left and Bauer was jerked in favor of Wallace. Bellamy's hit scored Lookabaugh and Kilgore. Woods was safe on Lewis' error and scored on Scouten's hit over the wall. Staker

## PLAN FOR TOURNAMENT IN SINGLES

The Executive Committee of the Portsmouth Horsehoe Club held a short meeting on the Children's Home grounds, directly after the last match.

## GOLF RESULTS

CINCINNATI, O., June 24.—With the candidates for the Ohio State golf championship narrowed down to eight by the process of elimination, play was resumed this morning over the links of the Losantville Country Club. The pairings for the third round, or championship match play and the order in which they tee off, follows:

Harold Weber, Toledo, vs. H. Hubbard, Toledo.  
J. Munroe, Zanesville, vs. H. Quackenbush, Cincinnati.  
Douglas Hill, Cincinnati, vs. F. Lush, Cincinnati.  
E. Hassman, Cleveland, vs. V. K. Milton, Dayton.

to arrange details for the tournament, in singles, which is to follow immediately after the tournament in doubles is finished. It was decided to open the registration, to the city, without elimination matches, and if the number of courts has to be increased, why to increase 'em. Matches are to be played off on Mondays, Wednesdays and Fridays, as they are now. A player must lose two matches before he is eliminated. Organizations, such as churches, business firms etc. may enter teams of three, four, eight, ten, fifteen, or any number, or anybody at all may enter by himself as an independent player. Members of teams will not be scheduled against each other, till the semi-finals. Entries can be made any time to Dr. J. G. Marcin, secretary, or to Edw. S. Gilfillan of the Bureau of Community Service.

The sooner entries are made the better, but registration for the tournament in singles will be held open till two days before the tournament in doubles is finished.

## Bogus Tickets Being Floated

NEW YORK, June 24.—Holders of bona fide tickets to the Dempsey-Carpentier fight in Jersey City, July 2, will be protected, Tex Rickard, promoter of the bout, announced today. The arrest here of several men charged with counterfeiting tickets to the fight and the knowledge that many fake tickets have been distributed throughout the country, has caused steps to be taken to detain every person who presents a fraudulent admission postbore. Extra police-men will be at every gate of the big arena for this purpose.

Rickard also warned the public against purchasing tickets from any one not known to be a bona fide agent. Indications pointed, he said, to a nationwide plot to distribute the counterfeit passes, and many more arrests were expected.

So It Does.  
The teacher had been giving a lesson on the redeemer—its haunts, habits and usages. One boy was not paying a bit of attention and the teacher pounced on him. "Now what is the use of the redeemer?" she asked him. The startled urchin looked up, paused a minute and then said, "It makes things grow, teacher."

British open championship here this morning with splendid prospects of being near the head of the field at the close.

There were ten Americans in the leading thirty yesterday.

## It Will Take More Than Good Signs To Beat Jack Dempsey

MANHASSETT, N. Y., June 24.—Last night somebody slipped a hand full of four leaf clovers into the challenger's boots.

Little rest is on the training program for Carpentier next week. The camp sparring staff, now numbering six, of which Joe Jeannette is the only heavy-weight, will be bolstered by three men of over-two hundred pounds, who are due to report within a week. Trainer Wilson, said today that the challenger would probably work every day, excepting Sunday, until July 1, and that sparring sessions would be held daily providing the weather was good.

The next good sign came in the form of a black cat; it appeared at the front gate late yesterday while Georges was standing there. It jumped to the fence post, arched its back against the Frenchman's hand and purred. "It's good luck," exclaimed a boy in the road.

Best of all, Paul Journe, who got a licking at the hands of Charley Weichert down in Brooklyn the other night, was wandering about the yard, eyes cast down. He stopped at a clover patch, became interested, picked a bunch and showed them to Motorcycle Policeman McGee, who officiates at the front gate.

"Why," said McGee, "four leaf clover means nothing but good. Put them in your shoes and some in Georges' shoes and everything will be lovely on July 2."

## Group Leaders Hold Meeting

The group leaders recently appointed in the Loyal Daughters' Bible class of the First Christian church, met at the home of Mr. and Mrs. Earl Rheinfrank of 1346 Sixth street, last evening and after a short business session, at which much work was planned for the summer months, refreshments consisting of brick cream and wafers were served. Adjournment was held at 9:30.
